

Meritor Part

Meritor Parts - Meritor is a premier global dealer which is proudly founded on a one hundred year custom of quality and service. They specialize in different modules, integrated systems and components to original machine manufacturers and the aftermarket for the industrial and transportation sectors.

Meritor values the wishes of all their customers to ensure their success while priding itself in the company's unique energy and feels this output of energy to be their competitive advantage in their worldwide operations. Meritor starts with a tradition which values diversity of individuals and their broad thought processes. Operating in 19 nations and hiring over eleven thousand two hundred people, Meritor promotes innovation and collaboration amongst a team of experienced experts.

Meritor strongly believes in just employing future focused employees. These top-caliber people could quickly get used to to changing surroundings and freely demonstrate the level of commitment and performance needed to be able to attain results for the competitive market environment. The business empowers their teams to make sound business decisions so as to improve the overall success of the company. In return, Meritor offers all their employees various chances for professional and personal development.

The Advanced Engineering team is on the forefront of systems engineering and components. This consists of drivelines, axles, suspension and braking systems utilized for medium and heavy duty trucks, off-highway vehicles, buses, military vehicles and trailers. The Meritor Advanced Engineering team is developing. They started a new technical center in Bangalore, India in September 2009 so as to lead their advanced product development initiatives which represent the entire Asia Pacific region. This particular team is likewise responsible for supporting the requirements of all their international engineering personnel.

The Quality team at Meritor is a dynamic and customer-focused group who is committed to ensuring optimum growth at their aftermarket distribution facilities and production plant which are situated on 5 continents and in 19 countries.

The supplier development network is particularly situated to be able to support new business growth. Regional teams are supported by international centralized specialties, initiatives and quality systems in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program encourages a data-driven, fact-based approach to decision making in each and every aspect of the company. The DFSS or Design for Six Sigma ensures product reliability in each region. The team is also included transactional Green Belts who make use of Six Sigma tools to business techniques and apply lean methods.
