

## TCM Forklift Part

TCM Forklift Parts - Forklift trucks are a major player in the material handling field of every global business. Transporting industrial goods happens each and every day on our hectic world. First innovated as industrial vehicles in the 1930s in the United States of America, lift trucks gained popularity after World War II during the 1940s. Becoming a reliable and efficient means to material handling solutions, the practicality and need of these machinery spread globally.

In 1949, established by Mr. N. Niwa, the first Toyo Carrier Manufacturing Company Limited, which was later named Toyo Umpanki Co, was recognized. Now the business is simply referred to as TCM Corporation. Throughout the years, TCM forklifts have become a global leader in forklift manufacturing and have built a solid reputation in the trade. TCM began constructing lift truck manufacturing locations outside of Japan in the 1980s and is now engaged in lift truck manufacturer at three foreign factories in China, the United States and Europe.

With more than 50 years of accumulated expertise and technology, TCM has been proudly making various models of industrial lift trucks, making their models recognizable all over the globe. With an energetic and strong staff, TCM has been able to continually work towards becoming a future leading material handling business.
