

Barrel Clamps

Barrel Clamps - Referred to as "Barrel Clamp", this particular hydraulic accessory is actually utilized on lift trucks to compress items which you wish to transport using the lift truck. Normally, they are used in order to paper rolls, barrels, and handle kegs, along with some barrel clamp designs being able to revolve the cargo. For instance, the rotate function allows the one operating the forklift to be able to insert a vertically stored paper into the horizontal intake of a printing press.
